

Professional Carpet Stain Removal Quick Reference Guide

"I **DON'T** know what the stain is... what should I do?"

Knowing what the stain is will help you get the best results from your stain removal kit. The easiest way is to ask your client the question. What stained it, and when did it happen? The colour, location, odour and feel of the stain can also give you clues. If you still don't know, start off with **Houdini**. If the stain persists, follow the table below starting off with 1 and moving through to 4 or 5 if required. The product in *italic font* is the recommended option within its category... For a more comprehensive guide refer to the A-Z of Stains Chart.

ALL PURPOSE	PROFESSIONAL							SPECIALTY	
1	2			3		4		5	
pH Neutral	Solvent				Alkaline	Acid			2-Part
<i>Houdini</i> General Purpose Carpet Spotter	<i>Release The Grease</i> Rinseable Wet Solvent	<i>Dry Safe</i> No Residue Dry Solvent	<i>Power Gel</i> Citrus Gel Solvent	<i>Bigg Orange</i> Citrus Solvent	<i>Blood & Protein Remover</i>	<i>Tea, Coffee & Fruit Juice Remover</i>	<i>Browning & Water Mark Remover</i>	<i>Trust Me</i> Safe Oxalic Acid Base	<i>Double Whammy</i> Peroxide Base

Always test on a small inconspicuous area first to ensure suitability of the product on the surface.

Houdini is suitable for removing stains from all types of carpet and upholstery. It is also a fantastic cleaner for smaller areas of carpet and upholstery.

Do your stain removal working from the outside of larger stains to the inside. This prevents the stain from spreading.

- Always wear the required personal protection equipment (refer to MSDS.)
- Do not mix chemicals, unless the directions instruct you to do so.
- Do not use any carpet stain removal product before reading and understanding the material safety data sheet and Product Information Sheet.

- There is not one product that removes all carpet stains. These products are part of a complete professional stain removal system. It is important to familiarise yourself with the different products and how each of them work for the ultimate result.
- Refer to the MSDS for all safety information.
